About Prompt & Play

Prompt & Play provides a safe place for children ages 2 to 24 to develop social and daily living skills through exploration and direction. We utilize various therapeutic modalities to increase environmental awareness, positive social interactions, and promote overall happiness.

Whether they are engaged through one-on-one counseling or as member of our various groups, children at Prompt & Play work towards their individual goals by learning:

- To take on a positive view of their social interactions
- Take initiative in their own social behaviors
- To become more self-sufficient and independent
- To gain an understanding of social cues and expectations
- And much, much more…
