Support Parent Refresher Course

Please continue to share your invaluable experience!

Join us in a 4 hour Parent to Parent refresher course!

If you are already a Certified Support Parent who took the training a while ago and have yet to been matched and/or would like to review the information from the original training, this condensed version of the P2P training is for you.

This course is not mandatory; it is a courtesy refresher course.

We are now receiving P2P match requests and we need the entire parent support network ready to be matched. If you would like to continue sharing your knowledge, experiences and provide support with someone newer to this journey, please register for this specialized training.
